Changes to Records

Official Name Change

If the University becomes aware that a student's name recorded in the University system does not match the student's official name as reflected by the United States Social Security Administration, the Registrar's Office will change the name in all systems to reflect the student's legal name. The student's legal name must be reflected in all systems of record, including the online classroom. Nicknames may not be used.

To update the University record as a result of a legal name change, ~~he or she~~ the student must complete a Change of Name Request form and provide copies of a signed Social Security card reflecting the new name, along with

supplemental documentation, as outlined on the form, ~~to the Registrar's Office.~~

Preferred Name Change

University of the Rockies recognizes that there are scenarios where a student may wish to utilize a non-legal name. The University will attempt to respect the student's request to use a preferred name with the understanding that issues may arise with respect to financial aid processing, identity management authentication, and receipt and application of transcripts from other institutions. Students wishing to make a request to utilize a preferred name in University records should contact the Registrar's Office.

Student Contact Information

Students are responsible to provide the Registrar's Office with changes to contact information including home address, work information, email addresses, phone numbers, or other key information. The student ~~should~~ ~~must~~ provide that information to the Registrar's Office within one week of the change through the Student Portal or email the Registrar's Office from the student's current email of record.

Student Concerns with Instructors

If a student has a concern with the instructor of his or her course, the student should first attempt to discuss his or her concerns with the instructor. If the student and instructor are not able to resolve the matter, the student may file an Instructional Issues form. An Instructional Issues form may be submitted based on the student's perception that any of the following conditions exist:

- Extended instructor absence from the classroom;
- Failure to respond to repeated attempts at communication*; or
- Detrimental behavior to a student's performance.

*If an instructor fails to respond to an email within 48 hours, then a student should submit a post in the "Ask Your Instructor" forum to verify that the email was received by the instructor, and allow the instructor an opportunity to respond (24 to 48 hours).

If a student wishes to appeal a final grade, the student must first discuss his or her concerns with the instructor who issued the grade. If a resolution cannot be found, then the student can proceed with filing a Grade Appeal form. Refer to the Grade Appeal Procedure in this section of this Catalog.

Page 13

Addition, Effective 9/1/2017

Instructional Issues Review Process

The Instructional Issues Review Process is an informal complaint procedure within the University intended to investigate situations in the classroom that may impact student success. The student must complete an Instructional Issues form to initiate this process and attach documentation supporting the concern.

The student's concerns will be thoroughly reviewed, and the student will receive a confirmation/summary email from a member of the Academic Operations Team. Then, within seven (7) business days, the Academic Operations Team will complete an investigation and begin corrective actions, if applicable.

Lastly, the student will receive follow-up communication from the Academic Operations Team, or designee, concerning the submitted Instructional Issues form. The communication will include a summary of findings and support for moving forward in the student's future courses at University of the Rockies.

Note: The University does not disclose confidential information about possible corrective action that may or may not occur in relation to a particular faculty member.

Revision, Effective 9/1/2017

Academic or Title IV Fraud Conspiracy to Commit Fraud against the University

University of the Rockies students are expected to exemplify honesty, integrity and a respect for truth in all of their dealings. Fraudulent behavior or attempts to commit fraudulent behavior will not be tolerated. Behavior that demonstrates fraudulent activity includes but is not limited to:

- Knowingly furnishing false, falsified, or forged information to any member of the University Community, such as falsification or misuse of documents, accounts, records, identification or financial instruments;
- Acts of academic dishonesty, as defined in this Catalog; and
- Action or inaction by someone in collusion with a wrongdoer which fails to discourage a known and obvious violation of University policy or law.

When members of groups, individuals acting in collusion, or members of an organization act in concert in violation of this policy, they may be held accountable as a group. To prevent fraud, a designee in the Office of Student Affairs may, in lieu of Student Community Standards proceedings, impose individual and/or group sanctions up to and including immediate expulsion from the University, subject to appeal, upon a determination of student involvement in such behavior. Determinations will be made with respect to the involvement of each accused individual. In most circumstances, University of the Rockies will treat attempts to commit any of the violations listed previously as if those attempts had been completed.

Students suspected of academic or Title IV fraud will be placed on a finance and transcript hold. If the student is unresponsive, they will be unscheduled from future courses. For those students utilizing financial aid, this finance hold will prevent a financial aid disbursement until the issue is resolved through either the appeal process or through a Student Community Standards formal hearing. Students may be referred to the Office of the Inspector General (OIG) of the U.S. Department of Education for attempted fraud as deemed necessary by the University.

Revision, Effective 9/1/2017

Involuntary Leave

The University of the Rockies considers the safety and well-being of its students, faculty, and staff as a top priority. The Involuntary Leave policy is not intended to be a substitute for appropriate disciplinary action when discipline is warranted, but may be used in cases when regular disciplinary proceedings cannot or should not

be used, and after attempts to encourage the student to initiate a voluntary leave have been exhausted. Involuntary Leave is available to protect the health and safety of the University community and is not a penalty. When a student engages in behavior that violates the Student Community Standards, the behavior will be addressed as a disciplinary matter under the applicable Standards.

A student may be subjected to Involuntary Leave if there is evidence that the student's continued attendance presents an unreasonable risk of harm to themselves or to members of the University community. The leave will endure for a pre-determined period, or until the student no longer poses an unreasonable risk of harm, at which time the leave will end and the student will be reinstated. Grounds for Involuntary Leave include:

- Represents a significant threat to the safety and health of members of the University community, including themselves; or
- Impedes the educational process or activities of the University and its personnel.

Procedure

~~When the University receives credible information regarding a student's behavior, statements, or actions, that may constitute grounds for Involuntary Leave, the Director of Student Affairs & Strategy, or designee, will meet with the student to review the reported behavior, actions, and or statements. If the University has a reasonable basis to believe that the student meets the criteria for Involuntary Leave, he or she may take any of the following actions:~~

- ~~• Impose an immediate Emergency Administrative Leave if there is compelling evidence that the student poses an immediate danger to the University community; or~~
- ~~• Require the evaluation of the student by an appropriate professional chosen by the University. The cost of the evaluation shall be paid for by the University's educational program. The evaluation shall be completed within ten (10) business days after the initial meeting with the Director of Student Affairs & Strategy, or designee, unless an extension is granted.~~

Evaluation

~~In situations where a mandatory evaluation by a professional is expected, the student will be required to sign written authorization to allow for the exchange of relevant information between the University and the evaluating professional. Failure to cooperate with the evaluation or sign the written authorization may result in a referral to the student conduct process. The professional making the evaluation shall assess the student's ability to safely participate in the University community. The assessment shall include a determination of:~~

- ~~• The severity of risk posed by the student to the health and safety of the University community;~~
- ~~• The probability that potential harm may occur, and~~
- ~~• Whether reasonable modifications of policies, practices, and procedures will sufficiently mitigate the risk.~~

~~If the evaluation results in a determination that the student's continued attendance poses no significant threat to the health and safety of the University community, the University shall take no further action under the Involuntary Leave policy.~~

If the evaluation results in a determination that the continued attendance of the student presents a significant threat to the health and safety of any member(s) of the University community, the University may refer the matter to the Office of Student Affairs and/or will conduct an Involuntarily Leave hearing to make an individualized and objective assessment of the student's ability to safely participate in the University's educational program. The assessment will include a determination of the severity of risk posed by the student to the health and safety of members of the University community, the probability that potential harm may occur, and whether reasonable modifications of policies, practices, and procedures will sufficiently mitigate the risk. The student may provide evidence showing he or she should not be placed on Involuntary Leave. If the hearing determines there is an unreasonable risk based on a high probability of substantial harm to members of the University community, the student will be placed on leave from the University.

During the period of either Emergency Administrative Leave or during a time period of Involuntary Leave after assessment, the student is not permitted to participate in University courses or events, or be present in any University facility or on any campus, except by the express permission of the Provost or designee. Appeals of an Involuntary Leave will be handled in accordance with the University of the Rockies Dispute Resolution Procedure for Student Complaints.

Purpose

This policy has been developed to proactively create an environment in which incidents of sexual misconduct can be promptly and effectively responded to without further victimization, retaliation, and with possible remediation of its effects.
